DX NEWS

CY9C St Paul Island -now QRT

'Cape Breton, Nova Scotia in the distance...a glorious day! Very light wind for a change. Breakdown (camp) tomorrow, Sept 5th ...the team is tired, happy but a bit sad to see it all end....now for the long trip..'

9M1Z Semporna Island OC-133 -update

Unfortunately, team member 9M8HAZ has been hospitalised following an accident; a spill of acid to be precise. He has been admitted for 2-3 days and will be monitored closely by doctors. The rest of the team have decided to carry on to Timba Timba island as planned.

3D2Y Rotuma DXpedition -update

Shipment by air freight is expensive says Gregg, W6IZT. To minimize shipping costs, the team will be carrying 2x K3s, 3x KPA500s, laptops, the StarLink terminal, and other gear as checked or carry-on baggage. Our equipment will be picked up from customs in Nadi and placed in storage by our agent in Fiji in preparation for the trip by boat to Rotuma. The boat runs between Suva, Fiji and Rotuma about once per month. Our shipment will be picked up in Rotuma by our on-island representative for storage at our operating location. The team arrives November 15.

This DXpedition is a partnership with Youth on the Air (YOTA) encouraging youth participation and will feature three young operators who will be active on the Island while there will also be 60 or more hams operating remotely using W6IZT's NexGenRiBs over Starlink.

We will be signing **3D2Y**, not 3D2Z as previously planned.

Funding raising efforts continue for the November DXpedition.

We hope to see you on the bands, the op on the other end is likely a young ham experiencing the thrill of a DXpedition pile up for the first time!

Please consider supporting the 3D2Z Rotuma DXpedition by visiting our website for details: rotuma2024.com

VP6WR Pitcairn Island -update September 2

Bill, G0VDE says he arrived Papete at the uncivilised hour of 0510 local, after travelling from LHR to LAX for 11 hours, followed by a 3 hour 'layover' at LAX and then a 8 hour flight on to PPT. He had allowed himself two full days in case of luggage problems, but is glad to say all bags arrived (although unfortunately not in good condition). He's got tomorrow to look around a bit and then has to go back to PPT airport at 0400 for the 0630 flight to Mangareva on Tuesday followed by a connection to the boat to Pitcairn, and planned arrival on Pitcairn early on Thursday morning.

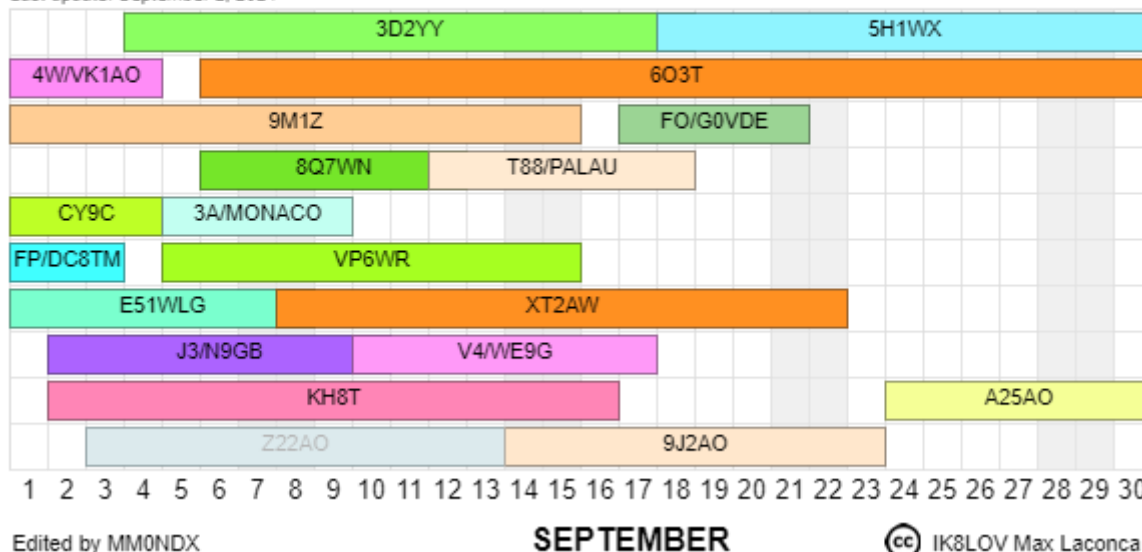

V7 Marshall Islands 2025 -update

The current solar cycle (Solar Cycle 25) wasn't expected to be this strong. When it began in Dec. 2019, experts predicted it would be weak like its immediate predecessor Solar Cycle 24. Instead, Solar Cycle 25 may be on pace to rival some of the stronger cycles of the 20th century.
